CHAIRMAN'S CORNER

Accounting is boring....well at least that is how accounting is portrayed! Our ACAP program is challenging that proposition with innovative strategies to introduce the breadth of careers in accounting and finance to high school students. Within the past nine months, the team has reached over 300 high school students through a one-day conference, classroom visits at public high schools, and participation in community job and career fairs. And the best is yet to come! The team is planning a revamped residency week this summer. We have new workshops, new tours, and a new location on U.C. Berkeley's campus. We are still expecting the same fabulous results!

ACAP WEEK 2018

ACAP Week will take place July 15-20 on the campus of UC Berkeley. The ACAP board is looking forward to connecting with the new class and the next generation of future business professionals.
